

AQAR 2017-18

BEST PRACTICES

Practices 1:

Title of the Practice: Strategies to continue Teaching-Learning Process, organize seminars/ workshops/ lectures/ awareness Programme, Research Activities and Commencement of Soil Testing Centre.

Goal: The entire teaching-learning process has to go on smoothly for the benefit of students for which Ramkrishna Mahavidyalaya is committed. The seminar, conferences, workshops programmes for students and staffs should organize by the Institution and Faculties may continue their research activities in the campus with publications and presentations. The soil testing centre may help the students to test their agricultural lands for more productivity.

Context: Ramkrishna Mahavidyalaya is a second oldest college in Tripura and to maintain its standard, the college authority continuously work for development of teaching-learning processes; organizing seminars, workshops, lectures and engage in research activities to support students and staffs and also for those students who are having agricultural lands (parents) and don't know the deficiency exists in the lands are working continuously for academic upliftment and also for society.

The Practices:

1. The regular teaching learning process is continuing in its own pace by adopting student centric teaching methodology.
2. Institution is creating sound environment for better academic activities.
3. Institution organizes various seminars, lectures and orientation cum induction programme for faculties as well as students for better understanding the practical world.
4. The institution also organizes training programmes for teaching and non-teaching staffs.
5. Faculties of the college also engaged themselves in research activities and publications.
6. Institution also perform awareness programme for students on various issues.
7. Soil testing centre is running with its own pace with the help of department of Geography.

Evidence of success: The evidences of success are mentioned in the AQAR in different points and sub-points.

Problems encountered and resources required:

1. College authority finds that there should be more input on teaching-learning process as it is a continuous process.
2. Teachers are requested to organize seminars, workshops, awareness programme in more quantity.
3. Fund is a constrain in organizing such programmes and also for field trip.

Practices 2:

Title of the Practice: Organizing cultural, sports and other co-curriculum activities

Goal:

1. To organize cultural programmes in the campus
2. To conduct sports activities in the campus as well as participation in other institution
3. Participation of students in regular activities and camps of NSS and NCC

Context: Ramkrishna Mahavidyalaya is committed to organize cultural and sports activities for the students' all-round development. The institution creates mind set for NSS volunteers and NCC cadets to devote themselves for the country so called 'Nation First'.

The Practices:

1. The Institution organizes college foundation, fresher's welcome, kokborok day, teacher's day, cleaning drive and other related programmes every year. Our college students also perform cultural activities and awareness programme outside the campus also.
2. Sports activities organized by the department of Physical education every day.
3. NSS and NCC unit of Ramkrishna Mahavidyalaya continuously engaged themselves in their regular activities as well as participation in parades and camps as well.

Evidence of success: The evidences of success are mentioned in the AQAR in different points and sub-points.

Problems encountered and resources required:

1. Fund is a constrain to organize such activities.
2. Few NSS volunteers and NCC cadets home are far from campus so they may not come regularly due to economic condition.
